Profile:

I am Muhammad Umair, a dedicated Software Engineer with strong communication skills and a consistent approach to achieving goals. My technical expertise includes MERN Stack Development. I have successfully completed my final year project, "JOBGENIE an AI powered Career Assistant" where I contributed as a Front End Developer, building an intuitive and efficient user interface. I am passionate about creating scalable web applications, solving complex problems, and continuously enhancing my skills to deliver high-quality software solutions.

Education:

INTERMEDIATE (2019)

ISLAMIA COLLEGE PESHAWAR (PER: 84%)

BACHELORS (2025)

ISLAMIA COLLEGE UNIVERSITY PESHAWAR (CGPA: 3.60)

Working Experience:

JOBGENIE PROJECT: (FYP)

This project proposes the development of JobGenie, a full-stack web application designed to significantly streamline and enhance the job application process for users. Leveraging the MERN (MongoDB, Express, React, Node.js) stack for robust performance and a modern user interface, the core innovation lies in the integration of specialized AI Agents using Open APIs and orchestrated with LangGraph. The platform aims to move beyond traditional job boards by offering personalized, data-driven tools for resume optimization and targeted job discovery.

SKILLS & ABILITIES:

- HTML, CSS & Javascript
- React JS
- Mongo DB & My Sql
- Open APIs
- Node JS
- Express JS
- Git & github

Languages:

- English (Fluent)
- Urdu (Fluent)
- Pushto (Native)
